Reasons for Refusal

1. It is a policy (DM OBJ 50) of the Meath County Development Plan 2021 – 2027 that, All applications for residential extensions in urban and rural areas shall be of High quality design which respects, harmonises and integrates with the existing dwelling in terms of height, scale, materials used, finishes, window proportions, etc; *inter alia*.

It is considered that the proposed development, by reason of its height, scale, massing, form and design, would adversely impact upon the architectural character and setting of the existing dwelling, which is recognised as a structure of architectural merit. The proposal would fail to remain subordinate to the parent structure and would diminish the special character and visual integrity of the building. Accordingly, the proposed development would seriously injure the character of the property and the visual amenities of the area and would be contrary to the proper planning and sustainable development of the area.

2. It is a policy (RD POL 48) of the Meath County Development Plan 2021 – 2027, “*To ensure all septic tank/proprietary treatment plants and polishing filter/percolation areas satisfy the criteria set out in the Environmental Protection Agency ‘Code of Practice Domestic Waste Water Treatment Systems (Population Equivalent ≤10)’ (2021) (or any other updated code of practice guidelines) in order to safeguard individual and group water schemes*”.

The applicant is proposing extra bedrooms with the development. The applicant has not submitted a site characterisation form that is compliant with the 2021 EPA Code of Practice for Domestic Wastewater Treatment Systems (PE≤10)

Therefore, based on the lack of information submitted the applicant has failed to demonstrate that wastewater generated by the proposed development can be treated on site. The proposed development would therefore be prejudicial to public health and safety.
