Meath County Council - Viewing Purposes Only!

Reasons for Refusal

1. The subject site is zoned RA – Rural Area with an objective *'to protect and promote in a balanced way, the development of agriculture, forestry and rural-related enterprise, biodiversity, the rural landscape, and the built and cultural heritage'*. The proposed development would result in a substantial intensification of a light-industrial use within the rural area. The proposed expansion and intensification, having regard to the proposed layout to the rear of existing residential dwellings, would result in negative impacts on the character of the rural area, and would negatively impact existing residential amenities in the area. Therefore, the proposed development would contravene **ED POL 26** of the Meath County Development Plan 2021-2027, which sets out that "*Meath County Council shall positively consider and assess development proposals for the expansion of existing authorised industrial or business enterprises in the countryside where the resultant development does not negatively impact on the character and amenity of the surrounding area. In all instances, it should be demonstrated that the proposal would not generate traffic of a type and amount inappropriate for the standard of the access roads. This policy shall not apply to the National Road Network."* The proposal would therefore be contrary to the Meath County Development Plan and to the proper planning and sustainable development of the area.

2. The applicant has failed to submit an Ecological Impact Assessment with this application. A review of aerial imagery indicates that piecemeal extension into the lands to the north of the subject site has been occurring over a number of years. The current proposal includes significant extension into these lands, which would appear to require the removal of habitats such as grassland, scrub and treelines. An Ecological Impact Assessment is required to ensure that no rare, protected or invasive species are present that would be impacted by the proposal. Furthermore, the site is adjacent to the Kilclone River. The Meath County Development Plan 2021-2027 requires a 30 metre buffer to the top of the bank of all watercourses outside urban areas. The proposal has not included this requirement. Therefore, it is considered that the proposed development would contravene **HER POL 35** and **INF OBJ 38** of the Meath County Development Plan 2021-2027 and would be contrary to proper planning and sustainable development of the area.
