Reasons for Refusal

1. Policy RUR DEV SP 2 of the Meath County Development Plan 2021-2027 seeks to ensure that individual house developments in rural areas satisfy the housing requirements of persons who are an intrinsic part of the rural community in which they are proposed, subject to compliance with normal planning criteria. The applicant applied for permission based on Section 9.4 Persons who are an Intrinsic Part of the Rural Community under the following definition, *“Persons who have spent substantial periods of their lives, living in rural areas as members of the established rural community for a period in excess of five years and who do not possess a dwelling or who have not possessed a dwelling in the past in which they have resided or who possess a dwelling in which they do not currently reside”*.

It is considered the applicant has failed to provide adequate and verifiable information to establish a rural housing need and hence the Planning Authority is not satisfied that that a rural housing need in accordance with the above provisions of the plan has been established. The proposed development would be contrary to the policy of the Ministerial Sustainable Rural Housing Guidelines for Planning Authorities and the Meath County Development Plan 2021 – 2027 and would, therefore, be contrary to the proper planning and sustainable development of the area and would establish a very undesirable future precedent.

2. The proposed development is located in a rural area where the pattern of development is characterised by low-density housing on road frontage sites. The proposed development by reason of its back-land location is considered to be out of context with the nature of existing development in the area and if permitted would constitute the unacceptable and haphazard development of back lands. The proposal would, therefore, be seriously injurious to the residential amenities of property in the vicinity and would set an undesirable precedent for further such development and as such would be contrary to the proper planning and sustainable development of the area.
