Reasons for Refusal

1. It is considered that the proposed development by virtue of its nature as a light industrial use proposed to be located in the rural area which is zoned RA 'Rural Area' in the Meath County Development Plan, would materially contravene the zoning objective for RA to *'protect and promote in a balanced way, the development of agriculture, forestry and sustainable rural-related enterprise, community facilities, biodiversity, the rural landscape, and the built and cultural heritage.'* Light Industry is not listed as a permitted use nor a use open for consideration under the RA Zoning Objective. The proposed development would therefore materially contravene a zoning objective outlined in the Meath County Development Plan 2021-2027 and would set an undesirable precedent for other similar developments, which would in themselves and cumulatively, not be in the interest of the proper planning and sustainable development of the area.
2. The subject site is partially located within the Blackwater Valley Landscape Character Area as defined under the Meath County Development Plan 2021-2027, which is categorised as being of Very High Value and having a High Sensitivity to development. It is a policy of the Development Plan to *"integrate in the development management process the protection and enhancement of biodiversity and landscape features wherever possible, by minimising adverse impacts on existing habitats (whether designated or not) and by including mitigation and/or compensation measures, as appropriate"*. The proposed construction of an additional 'light industrial' building on the subject site, located in a rural area, has the potential to negatively impact upon the landscape character of the Blackwater Valley (HER POL 28).
